**Five minutes to prove the excellence  
of a discovery,  
a product or a practice  
... not a second more!**

#### **THE PRINCIPLE**

In a relaxed and friendly atmosphere, each slammer (researcher, trainer or language teacher) has five minutes to present a discovery, a product or a good practice and then to convince the audience of its usefulness and / or excellence .

These slams which can be in French or in English are addressed to the public of the conference, at the end of each half-day.

Interesting and original subjects, a sense of humour, an element of surprise and straightforward presentations are always appreciated!

At the end of each match (succession of slams), the listeners

- vote for the slams they liked the most
- can approach slammers and ask them questions in a completely informal way.

The slammers who get the most votes are eligible to win prizes.

### SUBMISSION OF SLAM PROPOSALS

Slam proposals must be submitted in writing by 15 April 2018 on the Conference website (<http://congres2018.methodal.net>). They are evaluated blindly by the organizers. Authors do not have to follow any particular writing guidelines.

There are three categories for slams:

- research (science slam),
- product (manuals, project results, training, etc.),
- teaching / learning practice (good classroom practices, interesting experiences, new strategies, etc.).

### PARTICIPATION FEE

Slammers' participation fee is 100 euros and includes welcome reception, registration, access to plenary and parallel sessions, and to various documents, coffee breaks, etc. A certificate of presentation at the conference is given to all the metho-slamers.
